

13 June 2019

Diego Rivadeneira Espinosa  
Ambassador of Ecuador in Brazil and Representative to the ACTO

RE: New gTLD Application for .AMAZON

Dear Ambassador Diego Rivadeneira Espinosa,

I would like to thank you for your letter dated 5 April 2019.

Thank you for your recent communications regarding the Amazon corporation's applications for .AMAZON and related internationalized domain names. Your letter of [5 April 2019](#) has been posted to the [ICANN Correspondence page](#).

The ICANN Board passed a resolution on 10 March 2019 offering time for the ACTO member states and Amazon corporation to reach a mutually agreeable solution. According to this resolution (as mentioned in your letter), the two parties were given a four-week period to reach a mutually agreeable solution. In addition, ICANN Board offered a potential two-week extension to the initial four-week period if both of the parties mutually agreed on the need to extend the initial time period.

The four-week period expired on 7 April 2019. ICANN did not receive mutual request for an extension from both parties; therefore, it was not possible to satisfy your extension request.

Sincerely,

Göran Marby  
President and Chief Executive Officer  
Internet Corporation for Assigned Names and Numbers (ICANN)
