Dear Vikram Bajaj:

Please be advised that as of 29 January 2021, Net 4 India Limited ("Net 4 India") is in breach of its 2013 Registrar Accreditation Agreement with the Internet Corporation for Assigned Names and Numbers ("ICANN") dated 14 October 2019 ("RAA"). This breach results from:

1. Net 4 India's failure to make registration data and records available upon request by ICANN, as required by Section 3.4.3 of the RAA.

Please refer to the attachment for details regarding this breach.

By not providing the records and information requested in the compliance cases (numbers 00976469, 00977574, 00982277, 00982175, 00984400, 00986557, 00987371, 00988897, 00992182, 00993354, 00977648, 00987386) detailed in the chronologies below, which affect 28 domain name registrations, Net 4 India has failed to:

1. Demonstrate compliance with Section I.A.5 of the Transfer Policy which mandates that, subject to ICANN specifications or policies and any applicable laws or regulations, the registrar provides the Registered Name Holder ("RNH") with the unique "AuthInfo" code and remove the "ClientTransferProhibited" within five (5) calendar days of the RNH's initial request if the registrar does not provide facilities for the RNH to generate and manage their own unique "AuthInfo" code and to remove the "ClientTransferProhibited" status. In addition, with respect to the domain name capitalleague.biz Net 4 India has failed to provide:
 - a. An explanation addressing the allegations that the domain name was transferred from Net 4 India to Hosting Concepts B.V. d/b/a Registrar.eu, formerly known as Hosting Concepts B.V. d/b/a Openprovider ("Openprovider"), without the knowledge or authorization of the RNH; and

- b. Records to demonstrate compliance with Section I.A.3 of the Transfer Policy. Specifically, that through the mandatory Form of Authorization (“FOA”), Net 4 India confirmed the RNH’s intent to transfer the domain name when the relevant notice of pending transfer was received from the registry operator.
2. Demonstrate compliance with Section II.B and II.C of the Transfer Policy which, respectively: (1) state that, in general, registrants must be permitted to update their registration data; and (2) enumerate the steps the registrar must follow in doing so.
3. Demonstrate compliance with Section 2.2.5 of the Expired Registration Recovery Policy (“ERRP”), which mandates that beginning at the time of expiration and through the Domain Name System resolution interruption period described in ERRP Sections 2.2.2-.3, the Registrant at Expiration (“RAE”) must be permitted by the registrar to renew the expired registration. In the responses that were received in the compliance cases, Net 4 India appeared to provide the ‘Registry Expiry Date’ displayed through the relevant Registry’s Registration Data Directory Service (“RDDS”), also known as Whois service, as evidence that the domain names had been renewed. However, ICANN explained to Net 4 India that the ‘Registry Expiry Date’ is not indicative of an explicit extension of the registration by your registrar. ICANN then requested specific evidence of the domain name registration renewal completed by your registrar, Net 4 India did not respond to this request.

Additional Concerns

Net 4 India Limited continues to exhibit the same pattern of conduct that led to the notices of breach issued against it by ICANN on 10 December 2020 and 24 December 2020, both of which remain uncured (additional details in the “Prior Uncured Breaches” section). The number of complaints ICANN Contractual Compliance is receiving from RNHs and authorized representatives continues to increase, and such complaints include assertions that Net 4 India is exhibiting a pattern of non-response to domain transfer, renewal and registration data update requests. With regard to the relevant compliance cases, Net 4 India has either been non-responsive or has provided responses that have regularly been untimely and incomplete.

Prior Uncured Breaches

On [10 December 2020](#), ICANN issued a notice of breach against Net 4 India for a number of RAA violations. As of the time of this letter, Net 4 India continues to be in violation of:

- (1) Section 3.3.1 of the RAA, as query-based access to up-to-date data concerning all active registered names sponsored by Net 4 India for each top-level domain in which it is accredited is not being provided through Net 4 India’s web-based or port 43 Whois services;

- (2) Section 3.4.3 of the RAA with respect to the transfer and renewal cases included in the breach notice, as not all records and registration data ICANN specifically requested pertaining to the one hundred eighty-five (185) affected domain names have been provided;
- (3) Section 3.6 of the RAA, as Net 4 India failed to make consistent weekly data escrow deposits in the weeks following the 10 December 2020 notice of breach, including deposits on 24 December 2020, 31 December 2020, 7 January 2021 and 28 January 2021; and
- (4) Section 3.9 of the RAA, as Net 4 India has not paid for the totality of past due fees owed to ICANN.

On [24 December 2020](#), ICANN issued a notice of breach against Net 4 India based on the Registrar's violation of Section 3.4.3 of the RAA with respect to ICANN's requests involving four (4) domain names. As of the time of this letter, Net 4 India has not provided any of the registration data and records ICANN specifically requested to ensure the Transfer Policy and the ERRP had been complied with and the relevant RNHs assisted.

ICANN requests that Net 4 India cure all breaches in this 29 January 2021 notice by 19 February 2021, 21 days from the date of this letter, by taking the following actions:

If Net 4 India fails to timely cure the breaches noted above and/or fails to provide the information requested by 19 February 2021, ICANN may commence the RAA termination process.

Failure to make registered name holder and registration data available for inspection and copying

Sections 3.4.2 and 3.4.3 of the RAA require registrars to maintain RNH and registration data, and to make those records available to ICANN upon reasonable notice. Net 4 India's failure to provide the requested registration records and data related to the domain names in the compliance notices detailed in the chronologies below is a breach of Section 3.4.3 of the RAA.

CHRONOLOGIES

In the 1st, 2nd, 3rd and follow-up compliance inquiries and notices detailed in the corresponding chronologies below, ICANN notified Net 4 India of the violations associated with the case, including the affected domain names and the relevant ICANN policies and agreements. Each communication requested the evidence, information and actions needed from Net 4 India to become compliant. All inquiries/notices subsequent to each 1st inquiry/notice constituted an additional attempt by ICANN to obtain evidence of compliance from the Registrar. All telephone call details below described further attempts from ICANN to communicate to the Registrar the urgency of the cases and to make an ICANN Contractual Compliance staff member available to address any questions in order to assist Net 4 India in becoming compliant and assist the relevant RNHs. All these attempts were unsuccessful.
